MESSAGE FROM
DELLA SCHMIDT
PRESIDENT & CEO

Dear Shareholders:

The Greater Burlington Partnership is pleased to present this Asset Inventory Map (AIM) publication, which provides comprehensive information on many of the career readiness and exploration programs and resources available throughout Des Moines County.

Working with area K - 12 partners, Southeastern Community College and Iowa Wesleyan University, local non-profit organizations, State of Iowa resources and area private sector employers, the Greater Burlington Partnership has chronologized programs and resources that aid in youth-focused career-readiness and career exploration. This publication is designed to:

- Increase career readiness program awareness and heighten engagement of students and their families
- Increase engagement of stakeholders to strengthen and grow programs featured in this publication
- Help to limit or avoid duplication of efforts
- Help to identify gaps within the career readiness programs for the purpose of aiding in the filling of those gaps

For the students who use the AIM resources it is our hope that they will find an on-ramp to a career with one of the area companies thereby enriching the human capital that is so vital to our continued growth. For our area employers we hope this publication will spur further contacts and engagement with their fellow Des Moines County businesses and education institutions as we work together to develop the Talent Pipeline. For our education professionals we hope that AIM will be your primary resource for enhancing your work ready curriculum and student experiences.

We want to thank the Greater Burlington Partnership Partnering for the Future Investors who helped make this publication possible. It is with pride in our community and with high hopes for the future that we present to you "AIM."

Della D. Schmidt
